Tita,

Thanks! Appreciate the promptness!

Michael

Hi Michael,

No worries, below are the responses.

do the SDS solvents you sent to downstream users eventually return their spent solvents to you for further processing in your SDS units?

TL Response: No

Of, as far as you know, are they sent after use to a cement kiln or TSDF for disposal?

TL Response: Yes

Respectfully,
 Tita

Tita and Bob,

I don't think this would constitute a CBI question but I was asked something today for which I never thought to ask before, namely, do the SDS solvents you sent to downstream users eventually return their spent solvents to you for further processing in your SDS units? Of, as far as you know, are they sent after use to a cement kiln or TSDF for disposal?

That strikes me as a rather astute question, and one I wish I had thought of earlier.

Thank you both,
Michael
